SUMMARY

Software engineer with experience in developing web applications where I can work cross-functionally on the front-end and back-end, currently looking for a new challenge; member of the Python-MG group; I take a problem, break into parts and provide the solution; wanderlust who likes to travel either by plane or by coding

EXPERIENCE

Platform Engineer

Oi

Jan 2015 - Nov 2015 Belo Horizonte, MG - Brazil

Oi (NYSE: OIBR) is the largest telecommunications company in Brazil and South America, both in terms of subscribers and revenues

- I've used Python to automate boring stuff. For example, one script reduced the time of attachments recovery on CRM in 90%
- Development of a new tool for monitoring CRM servers using Django

Tech Lead

CASEMG

May 2013 - Dec 2014 Belo Horizonte, MG - Brazil

The company is part of Brazilian Department of Agriculture

- Reduced IT costs in 10% while increasing the service level
- Having me as Technology Leader, the company had four successful systems implementations in 1.5 (one-and-a-half) years
- I took the initiative to develop a new website for the company saving 30k in costs

ACHIEVEMENTS

I lived abroad

Previously I did not like changes until I realized that changes are one of the few constant things in this life. I decided to accept a job offer and moved with my wife to the other side of the planet (Australia). It was an amazing experience get to know other cultures and other people

Played guitar in my wedding

Although I was nervous that day, I could play a piece of Joe Satriani (Cryin') on the bride's entrance time

EDUCATION

Python

EXPERIENCE

Senior Consultant

Tractus Consulting

Oct 2012 - Apr 2013

Sao Paulo, SP - Brazil

Tractus is a consulting firm specialized in software development with Oracle middleware solutions

- Development of an integrated Java Web Portal to manage the financial planning, budget execution and accountability of the Mato Grosso state in Brazil. It was developed using Java, JSF, Oracle Weblogic, Oracle Webcenter and Oracle SOA Suite

Senior Consultant

ASG

Jan 2012 - Oct 2012

Brisbane, QLD - Australia

ASG (ASX:ASZ) is an award winning and wholly Australian owned IT business solutions provider

- Senior specialist in Oracle Fusion Middleware technologies, responsible for developing architectures and solutions for customers around Australia assisting clients in defining specifications and requirements, building customized demonstrations and delivering technology and business level presentations to technical, operational and management level audiences

Software Engineer

Montreal

Aug 2010 - Aug 2011

Belo Horizonte, MG - Brazil

Systems integrator and one of the 15 largest IT companies in Brazil

- Led a team to develop a protocol system using Java and Oracle Middleware technology for the Attorney General's office in the city of Belo Horizonte – Minas Gerais – Brazil. Responsible for defining the reference architecture both development and infrastructure and operations. Besides being the Tech Lead, I was a developer also.

Associate Software Engineer

ITE

Apr 2008 - Aug 2010

Belo Horizonte, MG - Brazil

Former part of PSINet Brazil the company offers consulting services in Enterprise Content Management

- I did a development of a protocol system for INFRAERO (Brazilian government airport's agency), to control their documents and workflows. It was developed using Oracle Enterprise Content Management Suite (Webcenter), Oracle Application Server 10g, Oracle Portal 10g, Oracle Internet Directory, Oracle Database, Oracle Grid Control, Oracle Application Test Suite and Java
- I did consultancy in a team responsible for developing the ECM (Enterprise Content Management) and Engineering system using Java and .NET integrations for a big Brazilian Mining investment company (www.ferrous.com.br). I was also responsible for researching new technologies for this product and defining the architecture
